

LCL

LCL self-study courses on CD and internet will really help you understand the subject, and will help students get the grades they need.

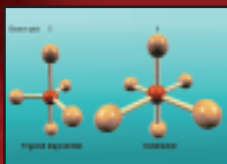

They are so easy to use, you do not even need to install them usually, yet they feature the latest technology.

Each boxed course includes a book, and for foreign languages only, a microphone.

All appropriate courses are National Curriculum compatible. They start at the beginning, and usually end with Mock GCSE or A-Level to show you what you have achieved.

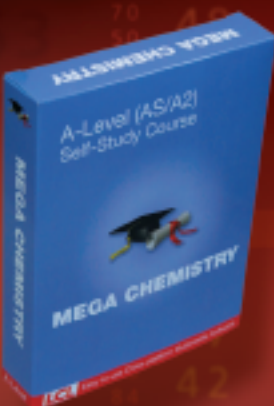

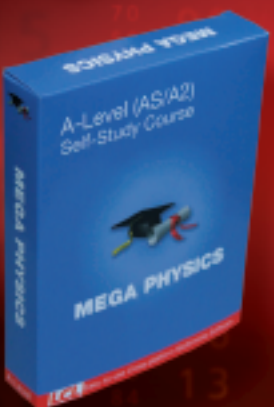

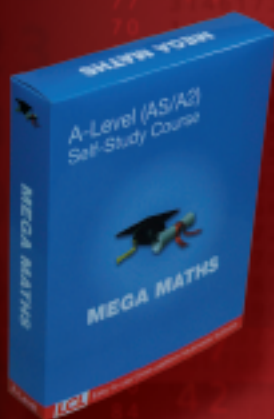

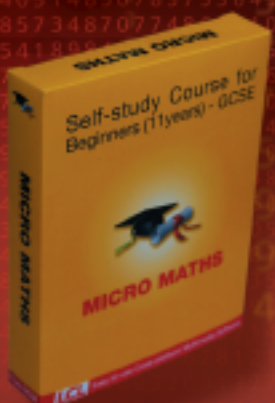

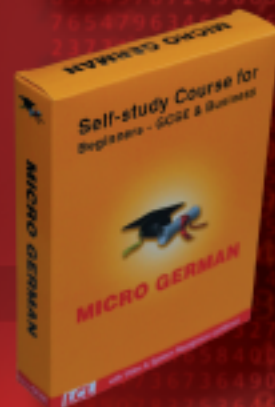

Mega Maths

Mega Chemistry

Micro French

MEGA MATHS (to A-Level AS/A2)

- **Instructions and over a million possible questions, hints and answers**
- **Familiar internet operation, with hypertext interface.** It is easy to use as it operates like internet webpages, but you do not need to be online when using it. It is on CD
- **Virtual Teacher (video)** pops up to help you understand the more complex parts of the course when you get the answer wrong

MEGA PHYSICS (to A-Level AS/A2)

- **Homework Slave** is a unique program that helps you do your homework. Just enter your Physics problem and it will show you how to work out the answer, for all common A-Level topics
- **Watch experiments on video** then do them yourself
- **Familiar internet operation, with hypertext interface.** See above
- **Virtual Teacher (video).** See above
- **Instructions and over 300,000 possible questions**

MEGA CHEMISTRY (to A-Level AS/A2)

- **3D animations** are used to help you understand molecule shapes. You also learn why molecules are those shapes
- **Familiar internet operation, with hypertext interface.** See above
- **Virtual Teacher (video).** See above
- **Watch experiments on video.** See above
- **Instructions and thousands of questions**

Other similar courses are:

MEGA BIOLOGY (to A-Level AS/A2)

MICRO SCIENCE (8 years - GCSE)

MICRO SCIENCE PRO (Double Size, 8 years - GCSE)

MICRO MATHS PRO (Double Size, 8 years - GCSE)

MICRO ENGLISH (8 years - GCSE)

TEFL MICRO ENGLISH (Beginners - First Certificate, EFL/ESL)

1ST MATHS COURSE (3-12 years level)

Online courses are available from www.CourseShop.co.uk

They have been chosen as one of the 'best on the web' by a well known search engine.

Network versions are also available for schools, and PLUS versions of the MEGA and PRO courses (i.e. Plus 40 Home-Users Online)

MICRO FRENCH (Beginners - GCSE)

- **Speech recognition and video combined.** Talk to a French actor (video) via a microphone, and he understands what you said and replies sensibly. You can even play spoken guessing games with him, all in French
- **Text-to-speech synthesizer with real speech.** Say anything in French
- **Record and Compare.** Record your voice and compare it to the native speakers saying the same words
- **Graphical analysis of your accent**
- **'Best' language course.** This is the latest version of the course that was chosen as the best language course of the year by a major computer magazine

MICRO GERMAN (Beginners - GCSE & Business)

- **Speech recognition and video combined.** See above
- **Text-to-speech synthesizer with real speech.** See above
- **Record and Compare.** See above
- **Graphical analysis of your accent**
- **Business Letter Generator** creates your German business letters for you and transfers them to your word processor. Suitable for busy businessmen and women, also for GCSE

MICRO SPANISH (Beginners - GCSE & Business)

- **Speech recognition and video combined.** See above
- **Record and Compare.** See above
- **Graphical analysis of your accent**
- **Business Letter Generator.** See above

MICRO MATHS (11 years - GCSE)

- **Instructions and over a million possible questions, hints and answers**
- **Familiar internet operation, with hypertext interface.** It is easy to use as it operates like internet webpages, but you do not need to be online when using it. It is on CD
- **Virtual Teacher (video)** pops up to help you understand the more complex parts of the course when you get the answer wrong
- **Fun interactive videos** e.g. work out if car salesman Dodgy Del (video) is cheating you with his percentage discounts. It is sufficiently enjoyable to motivate the student to use it
